With easy-to-use benefits, predictable costs and a quality network, SmartCare is an attractive option for your group to offer – and for your employees to choose.

Enhanced value

Health Net pioneered the creation of tailored networks that deliver affordability without compromise in quality or benefits. With SmartCare, Health Net offers more ways to enhance and protect your employees' health and trim your expenses. We're putting all the pieces together that you and your employees want, including:

SmartCare puts the pieces together and offers enhanced value for the health of California employers and employees.

Trusted community-based network

SmartCare is built on a tailored network of trusted, quality provider groups and hospitals. It's built to flex over time to match the evolving needs of your business. We're in 23 California counties, bringing doctors, specialists and hospitals to where your employees need them:

Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Marin, Napa, Orange, Placer, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Solano, Sonoma, Tulare, Yolo

Sustainable affordability

With simpler HMO plan choices and a mix of copayment and coinsurance designs, SmartCare meets budgets and exceeds expectations. For even more flexibility, you can offer SmartCare plans alongside other Health Net plans.

Well-being as a way of life

With SmartCare, you can offer benefits that make your employees feel valued, support their well-being and sustain productivity.

Your employees' healthy habits are rewarded. Adult members can earn an annual \$50 gift card reward just by completing the RealAge Test and sharing the results with their primary care physician.

And, acupuncture and chiropractic services are included as value-added benefits, because we understand how important these complementary services are for many Californians.

SmartCare offers convenient access to MinuteClinics (typically offered at CVS pharmacies) for treatment of common family illnesses and injuries, vaccinations and monitoring for chronic conditions.
