Use the Special Needs Plan Model of Care self-study program for your required annual training.

Dear Provider:

The Centers for Medicare & Medicaid Services (CMS) requires health plans to provide annual education and training on Wellcare By Health Net's (Health Net's*) Model of Care (MOC) to providers who usually treat our Special Needs Plan (SNP) members. This applies to our Dual Eligible SNP (D-SNP) members, who are eligible for both Medicare and Medicaid, and Chronic Condition SNP members (C-SNP), who have one or more qualifying conditions.

We update the provider training material annually to align with the current year MOC. Included is the self-study training that outlines the Plan's MOC requirements for our providers. You can download this self-study program from our website at healthnet.com/content/healthnet/en_us/providers/working-with-hn/medicare.html.

We appreciate the quality care you provide to our members and your support of our efforts to meet CMS regulations regarding the SNP MOC.

For additional information about how to work with our Plan to support SNP members, please visit our website at provider.healthnet.com, which houses links to alerts, provider support, quality improvement and other valuable resources.

Sincerely,

Wellcare By Health Net
